

Count of Registration No. for each Model.

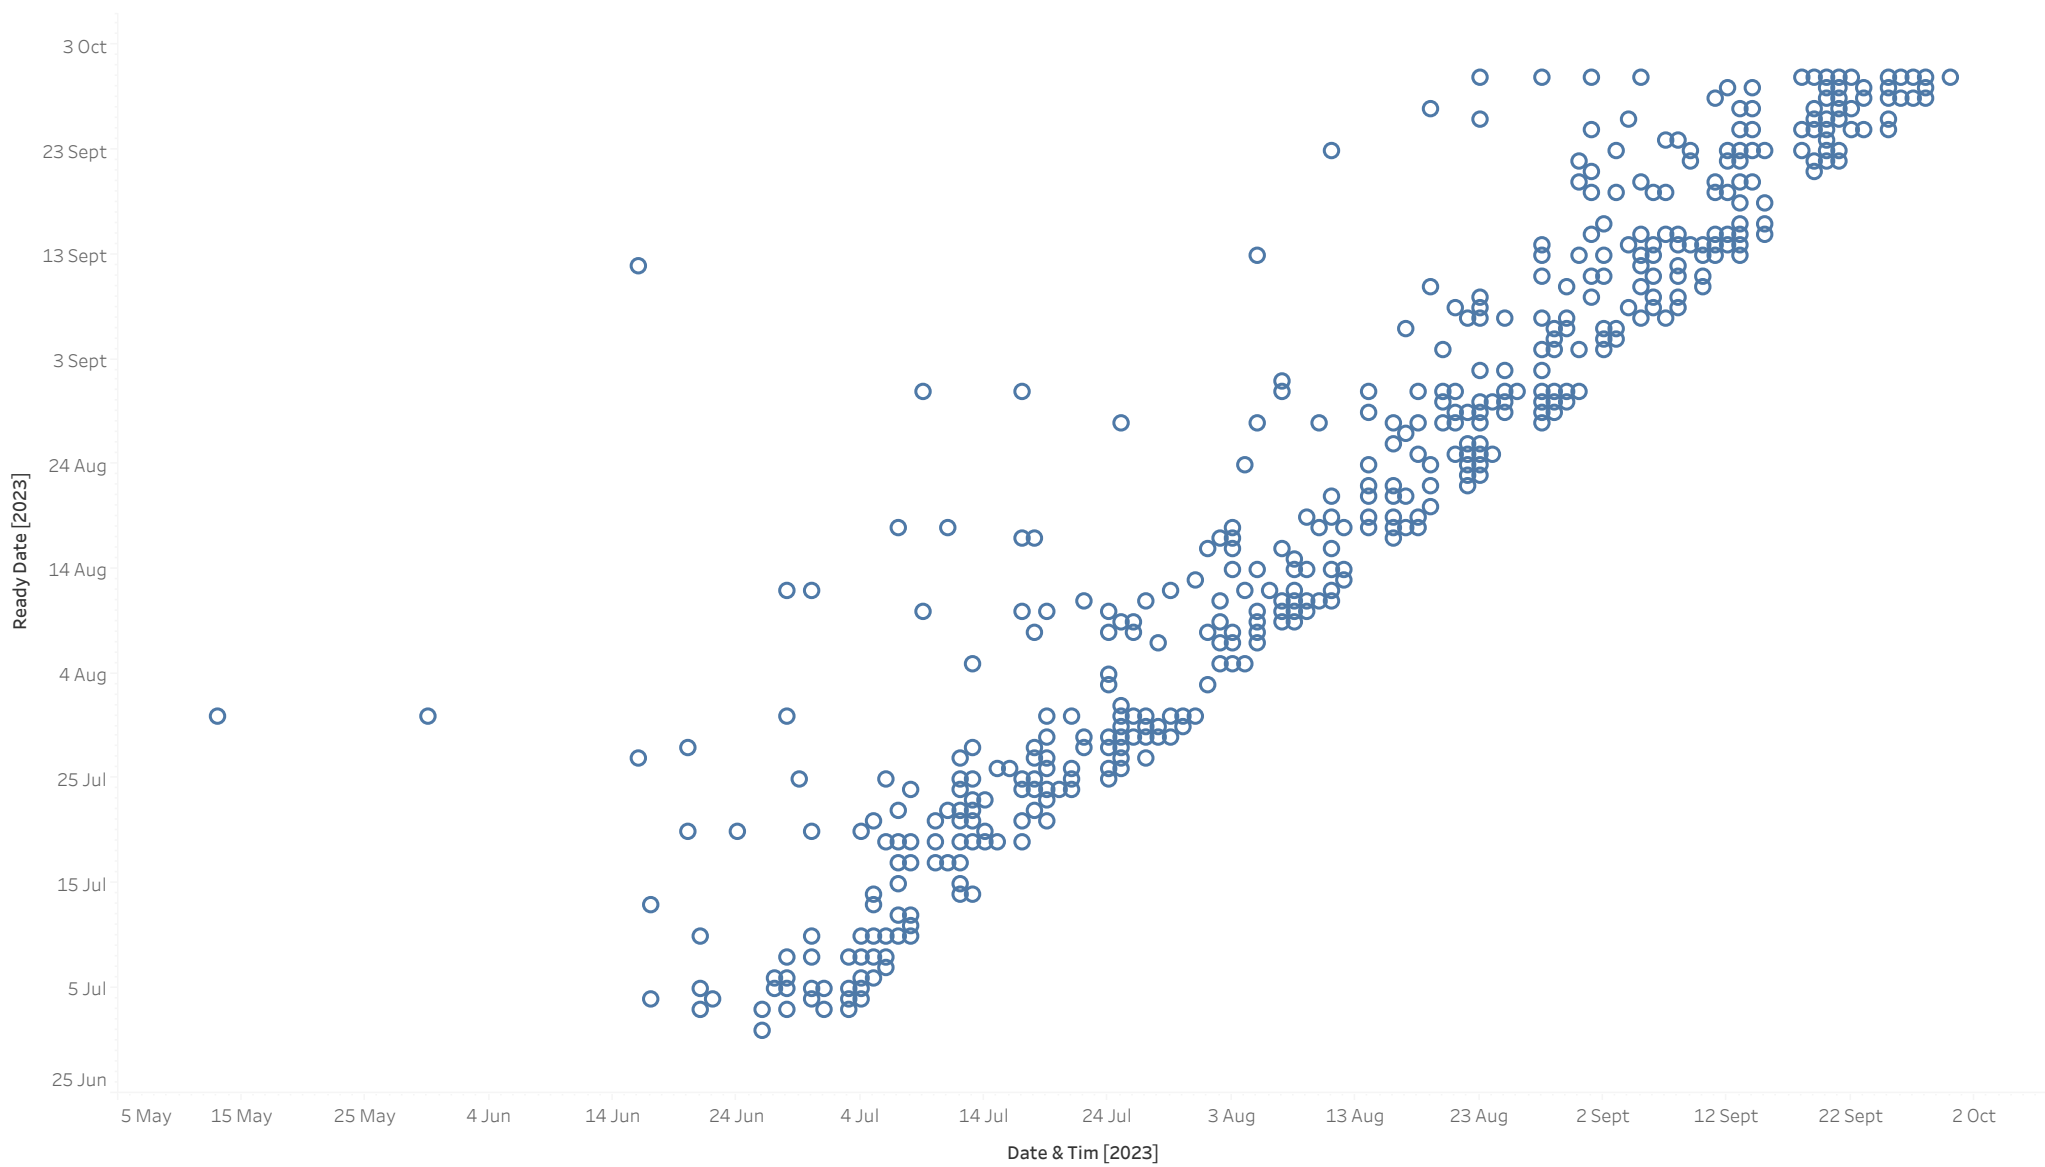

Count of Registration No. for each Model.

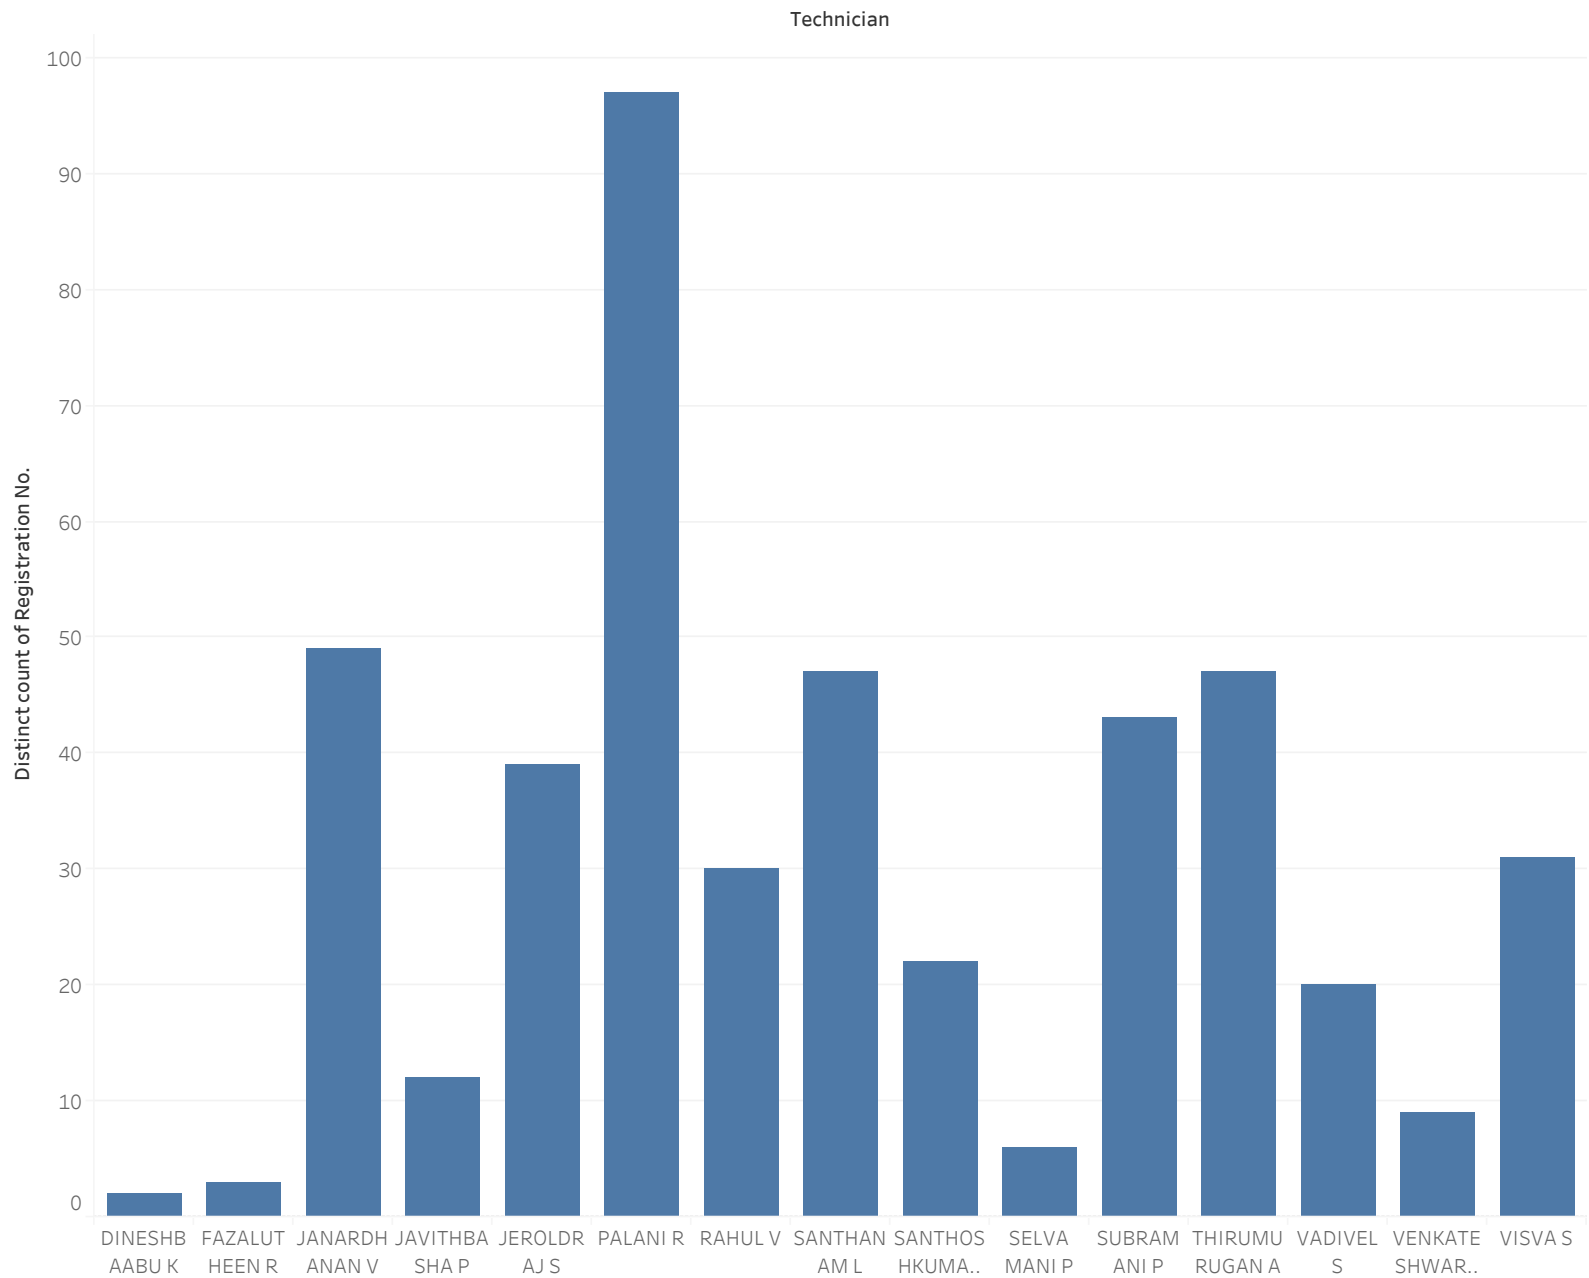

Count of Registration No. for each Service Type. The marks are labeled by distinct count of Registration No..

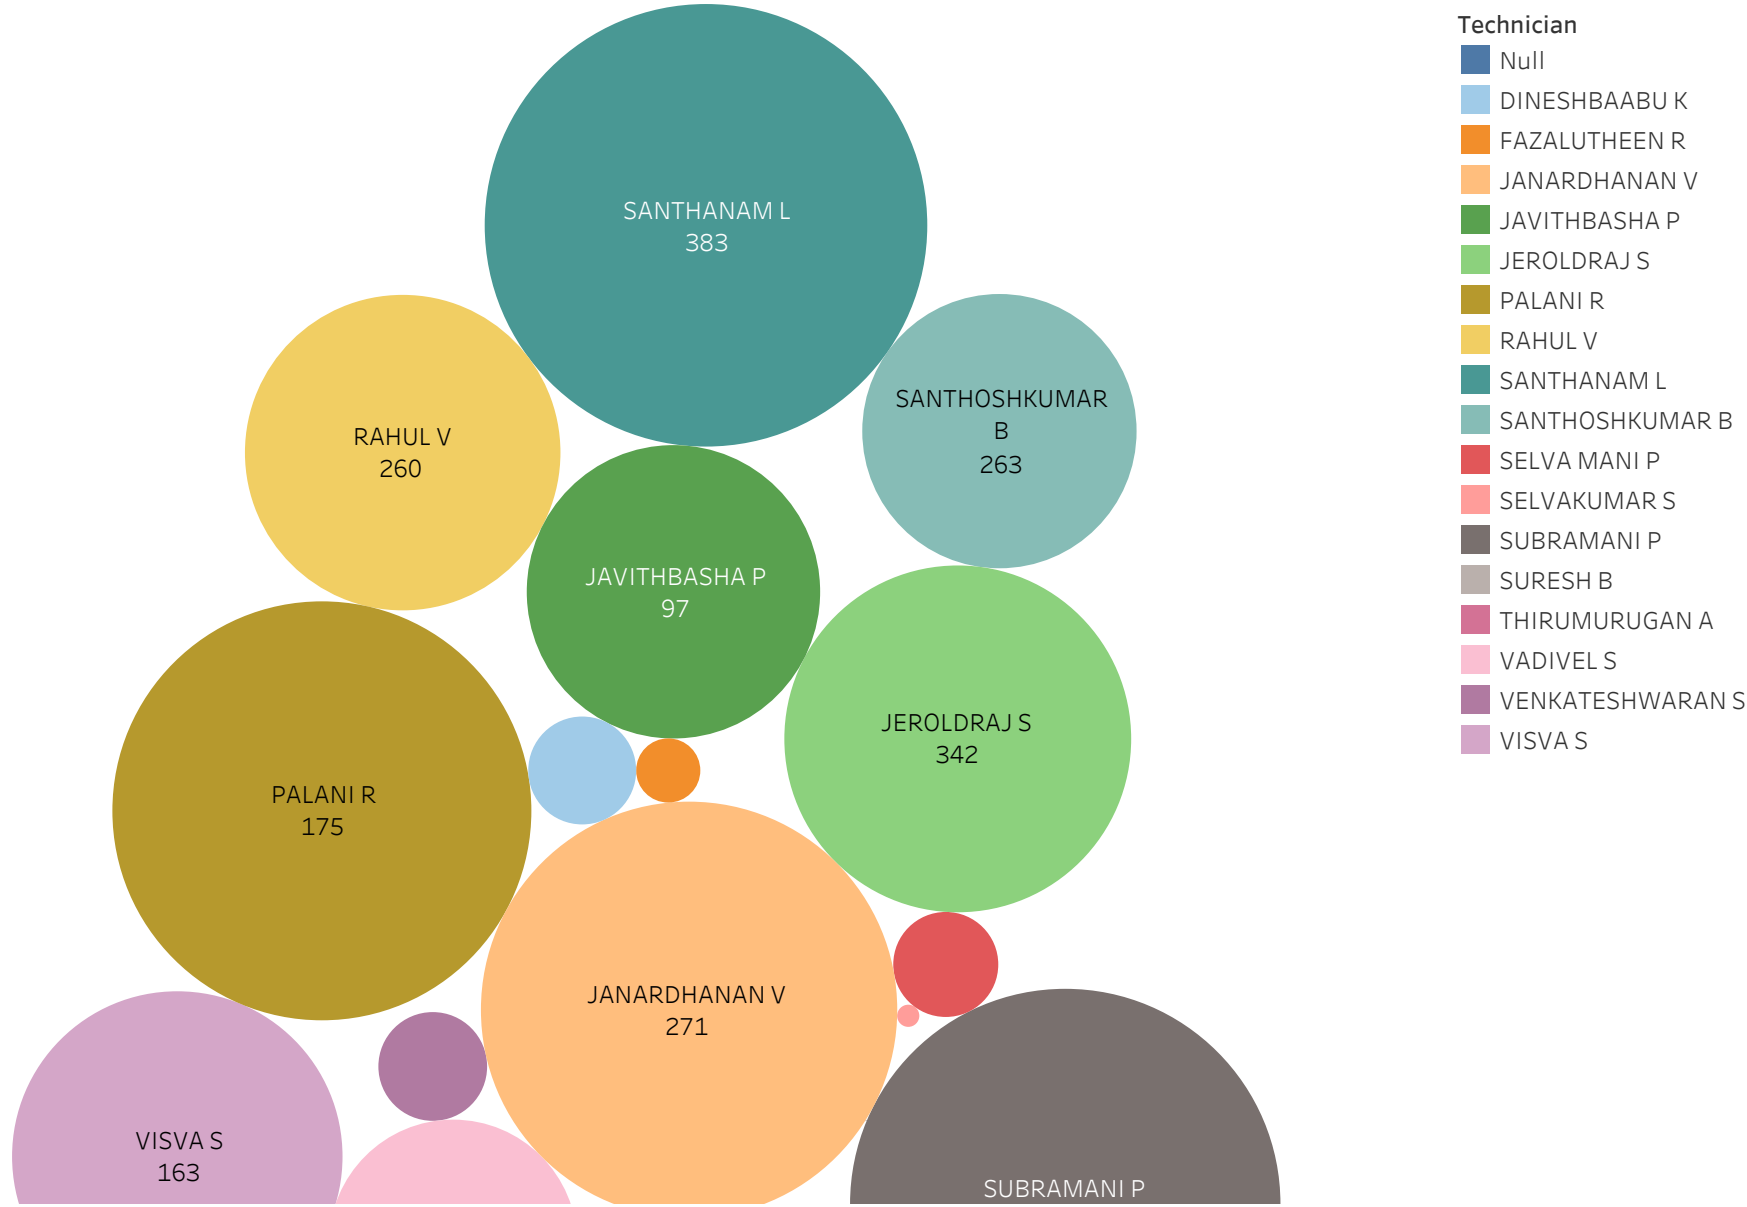

Map based on Longitude (generated) and Latitude (generated). The marks are labeled by PIN.

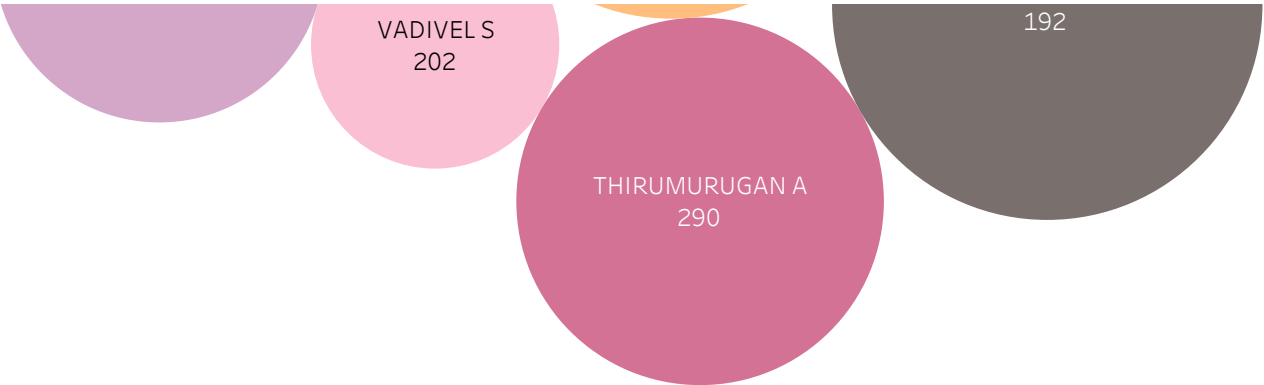

Date & Tim vs. Ready Date. The data is filtered on Service Type, which keeps BANDP.

Distinct count of Registration No. for each Technician. The data is filtered on Service Type, which keeps RR.

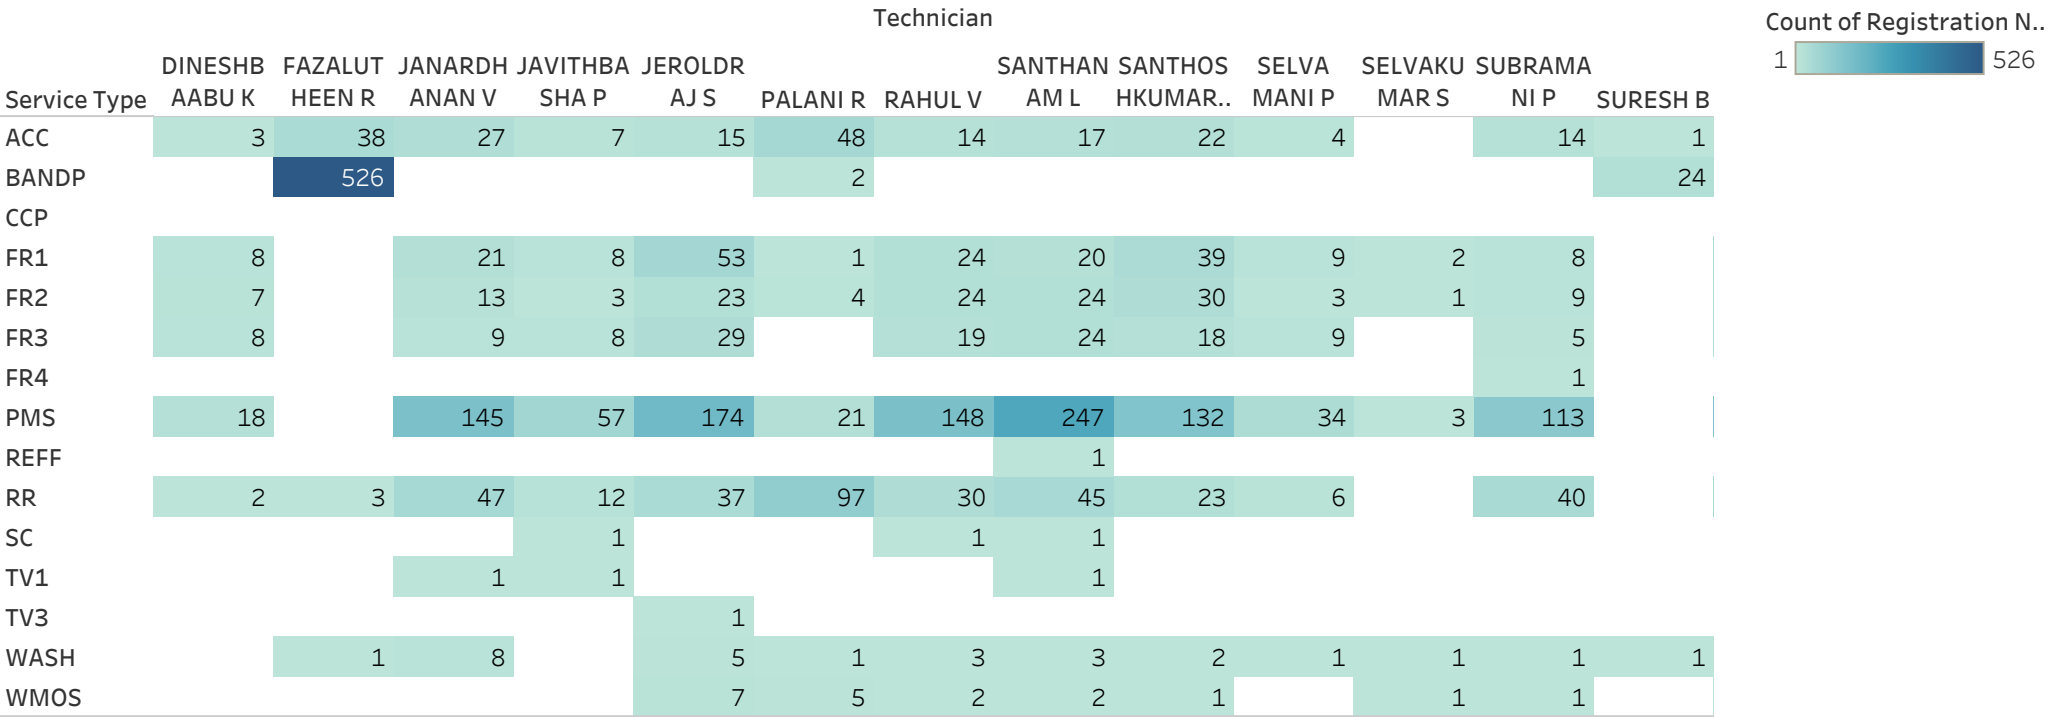

Technician and distinct count of Registration No.. Color shows details about Technician. Size shows sum of Time Taken. The marks are labeled by Technician and distinct count of Registration No.. The data is filtered on Service Type, which excludes BANDP.

Technician and distinct count of Registration No.. Color shows details about Technician. Size shows sum of Time Taken. The marks are labeled by Technician and distinct count of Registration No.. The data is filtered on Service Type, which excludes BANDP.
